We, the undersigned, as concerned residents/homeowners in Hatch, Utah, do not want a mining operation in our backyard. We've already seen what the strip mining has done to the landscape, our air quality (dust) and the noise it creates.

MAMMOTH

RECEIVED?

We also have concerns to the water pollution (drainage into the Mammoth Creek and Sevier River) the mine creates and the potential damage the blasting might have to our homes and water supply tank.
